## **PRESIDENT'S OUTLOOK**

Hi Everyone, To all who missed our June meeting you missed a great lecture. Keith spoke on UNDERWATER PHOTOGRAPHY and showed a very informative slide show. He also had a number of prints that were spectacular. Keith explained how each was photographed and showed the underwater housing that has to be used, and explained the different ways light behaves under water ( refraction ) and how the flash has to be positioned differently then the way we do it in our studios. While we had a good showing I was hoping for a better turnout, as I thought we could use a little diversification from the usual wedding , portrait and marketing talks, not that they are not important but you need a change of pace sometimes. In July we will have a photo shoot in Skillman ,N.J. "YOUR SPECIAL IMAGE". I encourage all to attend as it should be a fun day. Stacy is trying to line up a informative year if there is anyone you would like to hear let us know and will try to get them, no promises . See you next month and try to bring some friends to the meetings who possibly would like to join. Sincerely Walt

*Walt*
